Millennium Adhesive Companies Expands Production Capabilities

New facility adds additional R&D and manufacturing capacity for roofing adhesives, sealants, and systems

CHAGRIN FALLS, OH — Millennium Adhesive Companies has completed construction of its new headquarters in Chagrin Falls, Ohio. The state-of-the-art facility is home to: WTT Systems, Millennium Adhesive Products, Inc., and UAS (Universal Application Systems).

Millennium Adhesive Companies provides simple, innovative, high-performance roofing adhesives and sealants that provide a clear technical and economic advantage. They are a leading developer and supplier of solvent-free adhesives and sealants.

“We’re very excited to expand our production and research capabilities,” said Mark Rundo, President of Millennium Adhesive Companies. “This expansion marks an important step in our company’s history and demonstrates our commitment to continuing our leadership role within the Roofing Industry.”
